intrascopescope.app

THE ASK

\$700K

PRE-SEED 2026

\$300K target first close.

Use of funds

Security readiness, pipeline conversion and repeatable sales.

MARKET OPPORTUNITY

INITIAL BUYER

Europe

IT and AI leaders managing multi-model adoption across teams.

PIPELINE

100

Qualified target companies. Outreach underway; initial proposals sent.

PARTNERSHIPS

2 telcos

Distribution and reseller partnerships in negotiations.

THE PROBLEM

Separate AI accounts and models.

Teams use separate AI accounts and models.

Knowledge stays in private chats.

Company knowledge stays in private chats.

IT lacks visibility.

IT lacks visibility over access, data and spend.

THE SOLUTION

One live AI workspace.

A live, vendor-neutral AI workspace for teams across leading models, with shared company and project knowledge.

Central company-wide control.

Permissions, model policies, access, usage, budgets, spend and analytics.

Vendor-neutral by design.

Change model providers while keeping company workflows and context. Cloud, private or local deployment.

BUSINESS MODEL

Paid accounts

Revenue from paid accounts, bulk licences and usage top-ups.

~\$70K target

Target annual enterprise contract.

30% markup

On optional AI consumption.

NOTEWORTHY MILESTONES

Product

Live AI workspace for teams.

Pipeline

100 qualified target companies. Initial proposals sent; pilot negotiations in progress.

Partners

2 telcos in negotiations for distribution and reseller partnerships.
