

Outpost outpost.

Play. Learn. Improve. with AI

Outpost Chess is an AI-first, skill-based platform combining interactive chess learning with competitive gameplay. Users learn through a real-time AI trainer that teaches, converses, and plays, then apply skills instantly in competitive matches.

TEAM

Lena Govedarica (CEO)
Chess expert, WIM, FIDE Instructor, IA Arbiter, Streamer

Ilija Dragišić (COO)
18y entrepreneurship

Dragutin Miladinović (CTO)
lead engineer

THE ASK

€400K

Raising €400K (€160K secured)
at €4M pre-money.

MARKET OPPORTUNITY

TAM

\$3B

SAM

\$860M

SOM

€3M ARR

Y3 — 36K subscribers

THE PROBLEM

800M+ amateur chess players
spend €250M per Month
on Learning.

Improvement is slow, costly,
and often inaccessible.
Coaching is expensive.

Learning is not personalized,
and players hit plateaus and
struggle to progress.

THE SOLUTION

AI-powered chess learning
that is adaptive and always
available.

Players train with a real-time
AI trainer that teaches, converses,
and plays.

Players apply skills instantly
through structured competitive
gameplay.

Play. Learn. Improve.
